

Rob Poulter

I have two daughters just beginning their Bunbury PS journey, entering Kindy and Year 1 in 2024, and look forward to the having the opportunity to contribute to their school and its community over the coming years. I am particularly keen given the Digital Technologies role that the school plays in the DoE ICT Vision and Learning plan and the impact this has on students personally, and in the community, they are growing up in.

I have a passion for education, having taught as a Digital Technologies specialist in the secondary system (public and Catholic) in the South-West for 17 years before transitioning to Grok Academy, an NFP dedicated to supporting teachers and learners of Digital Technologies, and have also had the pleasure of being a mentor to many young learners from around the region at the Bunbury Coder Dojo since its inception.

Being involved with the School Board as a parent representative would allow me to contribute both my professional expertise as well as my perspective as a parent, and I would welcome the opportunity to engage with both my children's education and the school more broadly.

Andrew Cresswell

Due to a position being vacated early, I have been back-filling on the board for the last 18mths. In that time, I have also served as Chair for 12mths and enjoyed the challenges of the position. Collectively, we have reviewed the school's performance in terms of the previous business plan and developed a new business plan to support continued growth at Bunbury Primary. I am looking forward to working with the board on new projects during 2024 including development of a business case for a new building at the school and securing a traffic warden.

I have worked for the Department of Water and Environmental Regulation for the last 20yrs and am currently co-ordinating the agency's response to the expected closure of coal fired power generation in Collie by 2030.

I have twin boys attending Bunbury Primary and have been a proud supporter for grass roots community sporting organisations for over 25yrs. I was the President of the Bunbury Volleyball Association (BVA) for 7yrs and am actively involved in managing my boys junior football team and helping at basketball. I am a strong believer of the 'act, belong and commit' mantra and have enjoyed the relationships built as a result. I prefer to let my actions do the talking and, if re-elected, look forward to continuing my work with the very capable School Board representatives.
